

ARPIT SANJAY RAJPUT

Java Developer | Full-Stack Development

+91 8200943767 • arpitrajput.it@gmail.com • [LinkedIn](#) • [GitHub](#) • Ahmedabad, Gujarat, India

EDUCATION

Bachelor of Technology in Computer Science and Engineering	<i>2023 – 2027</i>
Vellore Institute of Technology	<i>CGPA: 8.8</i>
Class 12 (CBSE)	<i>2022</i>
Shri L.G. Haria School, Gujarat	<i>85%</i>
Class 10 (CBSE)	<i>2020</i>
Shri L.G. Haria School, Gujarat	<i>87.2%</i>

TECHNICAL SKILLS

Languages	Java, SQL, Python
Frameworks & Backend	Spring Boot, Spring Data JPA, Hibernate, SQLAlchemy, JDBC, REST APIs, JWT, React, Axios
Databases	PostgreSQL
Data Analysis	Pandas, NumPy, Matplotlib
Core CS	Object-Oriented Programming, Data Structures & Algorithms, DBMS, Computer Networks
Tools & Libraries	Git, GitHub, Python qrcode

PROJECTS

SpendSmart | Personal Finance Dashboard [\[GitHub\]](#) *Dec 2025 – Jan 2026*

- Built a full-stack personal finance dashboard using React, Spring Boot REST APIs and PostgreSQL to track expenses and subscriptions.
- Developed expense management REST APIs with Spring Boot and Spring Data JPA for storing and retrieving user transaction data.
- Implemented 7-day expense forecasting and unusual transaction detection using Linear Regression (Scikit-Learn), Z-scores, Pandas and NumPy.
- Created category-wise spending reports and interactive charts to help users understand their spending patterns.

Tech Stack: Java, Spring Boot, PostgreSQL, Python, Pandas, NumPy, Scikit-Learn, Matplotlib, React

QueueSense | Digital Queue Management System [\[GitHub\]](#) *Sep 2026*

- Built a digital queue system for hospitals and service desks: customers scan a QR code and get a digital token (e.g., Q-023) with live position and estimated wait time.
- Developed a real-time admin dashboard to call the next person and broadcast live announcements (e.g., “Doctor on a 15-min break”) to every waiting customer’s screen.
- Built an analytics engine with Pandas and NumPy on past ticket data to find average wait times, daily visitors and peak traffic hours, helping plan staff schedules.
- Built the Python backend with SQLAlchemy (PostgreSQL-ready) and a React dashboard styled with Tailwind CSS.

Tech Stack: Python, Pandas, NumPy, SQLAlchemy, PostgreSQL, React, Tailwind CSS

ACHIEVEMENTS & CERTIFICATIONS

- **Advanced Software Engineering & Development Intern** – MPOne (TCS-backed), May – Jul 2026: software engineering fundamentals, backend development with Java, and frontend development with React.
- **AI/ML Intern** – MPOne, May – Jul 2026: studied real-world AI/ML use cases, algorithms and models.
- **ServiceNow Virtual Internship** – ServiceNow University / SmartBridge / AICTE, 2026: certified in Administration Fundamentals, Agentic AI, Flows and ATF Essentials.
- **Marketing Analytics** – NPTEL Elite / IIT Kharagpur, scored 90%, 2026.
- **The Bits and Bytes of Computer Networking** – Google / Coursera, 2025.
